Lab Businesses

Comprehensive Patient Management

LabExpert offers a **Patient Management System** that centralizes patient data throughout the laboratory workflow. With this solution, from **Patient Bookings** to **Personalized Communication** - every needed operation is just one click away! With our solution, you can trust that your processes are streamlined, accurate, and effective.

- Configurable Forms & Tailored Order
- Multiple Packages & Promotions
- Graphical Data Presentation
- Smart Booking Options & Patient Communication

- Automated Reporting & Billing
- **AI**-Enabled Health Monitoring
- Timely Follow-ups & Auto-Approval

Secure Home Collection Services

Streamline **Sample Collection** by efficiently managing home visits, ensuring accurate **Specimen Identification**, and providing real-time tracking capabilities. By utilizing this system, you'll save time and money while also improving patient satisfaction and overall quality of care.

- Online Appointment Booking
- Efficient Home Collection Management & Process
- On-Site Test Addition during Collection

- Continuous Improvement through Feedback
- Optimized **Phlebotomist** Assignments & Tracking

Real-Time Sample Management For Optimized TAT & Quality Control

Improve the laboratory with our **Sample Management System**. Track and manage samples at each stage of the testing process. By adopting this, simplify workflows, increase data accuracy, and enhance the performance of your laboratory.

- Capture Orders
- Dispatch Reports Digitally using WhatsApp, SMS, Email, Online Portal
- Batch Processing &**Turnaround Time (TAT)** Management
- Set Auto-Alerts
- Sample **Barcoding**
- Quality Checks

Complete Control Over Radiology & Imaging

Revolutionize how **Radiological Data** is managed and analyzed with **LabExpert**. This solution accelerates reporting processes with cutting-edge features for image attachment, **PACS** integration, dynamic templates for reports, etc.

- Image & Document Attachment
- Appointment & Scheduling
- Worklist Data Management
- Custom Radiology Report Formats
- Remote Reporting
- **PACS** Integration (Third Party)
- Dynamic Templates & Intelligent Snippet

Solutions Beyond Limit...

Instrument Automation with Analyzer Interface

Get over manual entries! **Instrument Automation** introduces improved data management and reporting. This enhances data accuracy, reduces manual errors, and expedites reporting processes. Ensure efficient laboratory operations compliance with standards and empower data-driven decision-making in healthcare management.

- Effective Analyzer Utilization
- Systematically Collaborate All Lab Instruments
- Data Integrity & Compliance with Regulations
- Eliminate Manual Errors & Enhance Report Accuracy
- Auto-fetch Test Data & Optimize Analyzer Interfacing

OPD with EHR for Seamless Workflow

We integrate **Outpatient Department (OPD)** functionalities with **Electronic Health Records (EHR)**, optimizing clinical workflows and patient experiences. Using this, create an environment that fosters exceptional efficiency and ensures high patient satisfaction.

- Efficient OPD Registration
- Real-time Metrics
- Integrated **Electronic Health Record (EHR)**
- Interactive Appointment Management & Booking
- User-Friendly Clinic Billing
- Availability of **E-prescription**

Inventory Management

Manage the inventory of the reagents/consumables used in the laboratory. You can keep records of the entire data flow starting from requisition to issue, order to purchases, etc. Allow us to handle your inventory and freely concentrate on your work!

- Automated Control & Calibrator Stock Management
- Branch / Department wise Stock
- Real-Time Consumption Analytics of Reagents
- Lab Inventory Ledger, Stock Trial & **MIS** Data
- Inventory Reorder Level & Expiry

Simplified Franchise (B2B) Management

Streamline **B2B** transactions efficiently and securely with features from **B2B Portals** with centralized access to credit management for prepaid customer. It empowers your lab to thrive in a connected **Business-2-Business** environment. Efficiency and success in every transaction!

- Secure **B2B Portals** with Centralized Access
- Real-Time Finance Tracking & Control
- Automated Payment Collections
- Swift Payment Integration
- Ledgers & Transaction Oversight

Finance Management with MIS

LabExpert - the ultimate solution to combine **Finance Management** and **MIS**. We offer a wide range of features, from pricing and discount management to financial analytics and insights, providing a comprehensive tool to optimize your financial processes.

Diverse Pricing Structures with Multiple Rate Lists

Strategic Automated Discounting

Financial Options with Promo Codes & Wallets

Exclusive Benefits through **Patient Privilege Card**

MIS Reports for Business Insights

Real-Time Dashboards for Instant Financial Insights

Performance & Comparative Reports for Informed Decision-Making

Data Security & Integrity (NABL standard)

Enhance Transparency With **Audit Logs**

Improve Security With **Access Control**

Data Integrity Compliance with **NABL**

Privacy-First Approach

Why LabExpert?

Our Product Is **NABL** Compliant

Full Features Configurable & Easy Sample Accession

Best-In-Class

Monthly Software Updates and Enhancements

Auto Backup Available

Online and Offline Onboarding With Dedicated Support

Report Delivery through SMS, Whats App, Email and Web Portal

Effortless **LIS** (Machine) Integration With LabExpert LIMS

> Excellent experience! LabExpert enables me to do a better job and respond to any queries quickly. There are so many features to choose from. I like being able to customize reports to our specific requirements.

-RB Diagnostic

> LabExpert LIMS is a good software. In particular, the LIS Integration with the software is the most beneficial because it reduces our extra labor, manual errors, and business costs.

-Desun Reference Lab

> LabExpert has been extremely beneficial to our laboratory. It enhances our ability to provide our patients with quick and secure lab results. Additionally, this software is helping us stay competitive by giving monthly new updates.

-Sushrusha diagnostic & Speciality Center, Baguihati

Here's What Our Customers Say

Highly Rated LIMS Since 2011

👍 Ease of Setup

👍 Ease of Admin

👍 User Satisfaction

👍 Smooth Workflow Management
